RE: James Slycord

Dear Ms. Vasquez,

I am writing to update you on the evaluation of James Slycord. Mr. Slycord was seen to determine the need for sex offender treatment as he was denying that he had sexual contact with the victim of the instant offense, known as Leo. Further Mr. Slycord maintained that he believed Leo was 19 years old and that when he found out that the actual age was 16 years he ended the relationship.

During this evaluation Mr. Slycord prepared a narrative of his involvement with the alleged victim of the instant offense. He also submitted to an instant offense polygraph. The polygraph focused on whether Mr. Slycord performed oral sex on Leo as had been alleged. Mr. Slycord passed this polygraph indicating that he is telling the truth about not engaging in oral sex with Leo.

After a finding of no deception on the instant offense polygraph Mr. Slycord was asked to prepare for and take a sexual history polygraph to investigate whether he had a history of sexual contact with a minor. Mr. Slycord showed no deception on this polygraph as well.

Based on these two polygraphs and the information available at this time, it appears that Mr. Slycord does not have a history of deviant sex with minors. Therefore it does not appear that he would benefit from sex offender treatment.

If I may be of further assistance, please feel free to contact me.

Sincerely,
Sona S. Nast, LCSW, LSOTP
