RE: CLINICAL POLYGRAPH EXAMINATION ADMINISTERED TO: **JAMES SLYCORD** ON JULY 11, 2012.

SPECIFIC ISSUES/ALLEGATIONS UNDER INVESTIGATION:

This is a "Maintenance" polygraph examination:

This examination is specifically targeted to deal with issues of violations of treatment, yet unidentified while on probation. "Results of these examinations are meant to assist treatment providers and supervision specialists in developing individual treatment and supervision strategy, and in assessing risk while on probation".

No pre-test disclosures were made. Mr. Slycord indicated that he was aware of his conditions of probation. The preparation for the maintenance polygraph questionnaire was discussed with Mr. Slycord during the pre-test portion of the examination. Mr. Slycord stated that all violations of his probation rules have been reported prior to his arrival for the polygraph examination. No further information was provided

Based on the pretest interview a polygraph examination was constructed and administered.

TEST PROCEDURE:

Following the pretest interview, a standardized examination utilizing relevant, irrelevant, and comparison questions was designed and administered to Mr. Slycord. Noted below are the relevant questions asked and his answers during the examination.

Relevant Q1:	Have you consumed any alcohol or illegal drugs that you are keeping secret from disclosure?
Answer:	No.
Relevant Q2:	Have you traveled outside your authorized counties or out of state without getting permission from your supervising official?
Answer:	No.
Relevant Q3:	Have you had any unauthorized contact with children that you have not reported?
Answer:	No.

Relevant Q4: Have you engaged in any sexual behavior that you know would violate your rules of probation?

Answer: No.

TEST EVALUATION AND RESULTS:

The examination chart data were analyzed consistent with nationally standardized scoring and evaluation procedures and resulted in a finding of: **NO DECEPTION INDICATED**

SUMMARY OF EXAMINATION:

Evaluation of the response criteria gathered during this polygraph examination did not indicate any significant physiological response to the relevant questions.
